

The Children's Center at Caltech
Professional Development Division
Educator Tours and Trainings

Thank you for your interest in **The Children's Center at Caltech**. Since 1972, we have been offering a high quality child care and education for children ages six month to six years. In 2000, our research led us to adopt STEM (Science, Technology, Engineering and Mathematics) curricula as a focus of our early childhood program. As leaders in STEM Early Childhood education, we launched ECSTEM (www.ecstem.org) in 2011, and host an annual conference, as well as individual professional growth opportunities, each bringing together educators, policy makers, researchers and other vested community stakeholders to address the needs of our youngest citizens.

Due to the overwhelming demand for tours of our facilities, and requests for professional growth workshops, we have formed a Professional Development Division (PDD) that arranges tours, on-site visits and workshops.

Educator Tour

Includes a full tour of our center. During the tour, you will see our STEM based program in action. You will walk through our nine classrooms, infants to preschool. Additionally, you will have a firsthand look at our award-winning outdoor STEM laboratory.

Half Day Training

Includes a continental breakfast, full tour of our center, STEM curriculum presentation and lunch. Transportation is not included.

Full Day Training

Includes a continental breakfast, full tour of our center, (2) STEM curriculum presentations and lunch. Transportation is not included.
